

February 25, 2022

Dear Parents and Families,

As you are aware, the mask mandate was removed from schools. Yet, we have continued asking our staff and students to wear their masks within the building. However, beginning March 1, 2022. The school will be moving forward with other schools and removing the request for masks to be worn inside. Students and staff can continue using masks as desired, but these will no longer be required within the building.

We remind parents and families that daily attendance is critical for student success. If you would prefer that your child wear a mask, please just let us know and we will continue to provide them with a mask for this school year.

We are committed to our students and continue to strive for excellence. We appreciate all your support in working with our wonderful students.

Thank you,

Katina Santamaria, Principal
