

Hello Guadalupe Families! You are almost done with enrollment. However, an extra step is needed to complete student registration. After submitting this application, K-6 Parents/guardians need to also complete and submit the income form online. This form can be filled out in a computer or any other mobile device; as well as in English and Spanish. Current Students have until **Mar 31, 2023** to complete this registration and submit the income form.

- **Income Form**

Note: For the url, if unable to click on it, please copy the link, open a new window, and paste it in the search bar. This should take you directly to the form.

Registration is not complete until all forms have been filled out, signed, and submitted to the school. Again, for a student to be fully registered, he/she needs to have the Aspire registration completed, and the income submitted. If the Aspire registration is submitted but no income form, Guadalupe School will not guarantee the spot for the student for the 2023-2024 school year.

Please sign below indicating you have read and understand the additional steps that need to be done to finish student registration.
